ADVANCING INCLUSIVE AND RESILIENT URBAN DEVELOPMENT TARGETED AT THE URBAN POOR IN BANGLADESH

Timeline: August 2019-June 2020

PI: Zahidul Quayyum, Professor (Health Economics) and Co-Director Research, Co-Director Centre of Excellence for Urban Equity and Health (CUEH)

Coordinator: Md. Uzzal Chowdhury, Senior Statistician

Implemented Under: Centre of Excellence for Urban Equity and Health (CUEH)

Objective: To conduct social and poverty assessment of urban poor households of the low-income communities at city level in Bangladesh through desk review and consultation with community based organizations. The study also aims at documenting the existing good practices, challenges and identifying investment opportunities in strengthening resilience for the urban poor.

Research Method: Analysis of Secondary Data, Document Review, and Workshop.

Partners: BRAC Urban Development Program (BRAC UDP)

Donor: Asian Development Bank (ADB)
